

**Ph.D Supervisors of Shantou University (College of Science)**

Name	E-mail	Specialty	Research field(s)	Remarks
Hui Wang	wanghui@stu.edu.cn	Biology	Interaction between microalgae and bacteria	
Bo-Bo Zhang	bbzhang@stu.edu.cn	Biology	Biosynthesis/bioproduction of bioactive metabolites by submerged fermentation of edible and medicinal fungi	
Hongyu Ma	mahy@stu.edu.cn	Marine Biology	Genetics, breeding and hybridization, sex determination and differentiation, early development in economic marine animals	
Shuwen Zhang	zhangsw@stu.edu.cn	Marine Biology	Research field focus on the material and energy cycles in Marine dynamic processes and their coupling relationship with biochemistry	
Yueling Zhang	zhangyl@stu.edu.cn	Marine Biology	Aquatic Animal Immunology	
Zhen Wang	zhenwang@stu.edu.cn	Marine Biology	Ecotoxicology and Health Risk	
Tieyu Wang	wangt@stu.edu.cn	Marine Biology	Risk Assessment and Pollution Remediation	Coastal pollution, risk and ecological remediation
Yang Liu	liuyanglft@stu.edu.cn	Marine Biology	Marine bioactivity substance, Marine polysaccharides-based hydrogel materials	
Zhongping Lai	zhongping_lai@stu.edu.cn	Marine geology	Marine fossils and environment	Current research focus is "Triggers for mass extinction across P-T boundary"
Wenhua Liu	whliu@stu.edu.cn	Marine geology	Marine Environment Management, Marine Ecology Protection
